

A photograph of three people in a workshop or office environment. On the left, a woman with short blonde hair, wearing a maroon sweater, is looking down at something in her hands. In the center, a woman with long red hair, wearing a black and orange striped shirt, is looking towards the camera. On the right, a man with a beard, glasses, and a black baseball cap with a 'RAIDERS' logo is looking down at the same point of interest. The background is a bright, out-of-focus window showing a building exterior.

Global Digital Innovation Program: G-DIP

Who are we?
What is it about?

inno_space
DESIGN FACTORY MANNHEIM

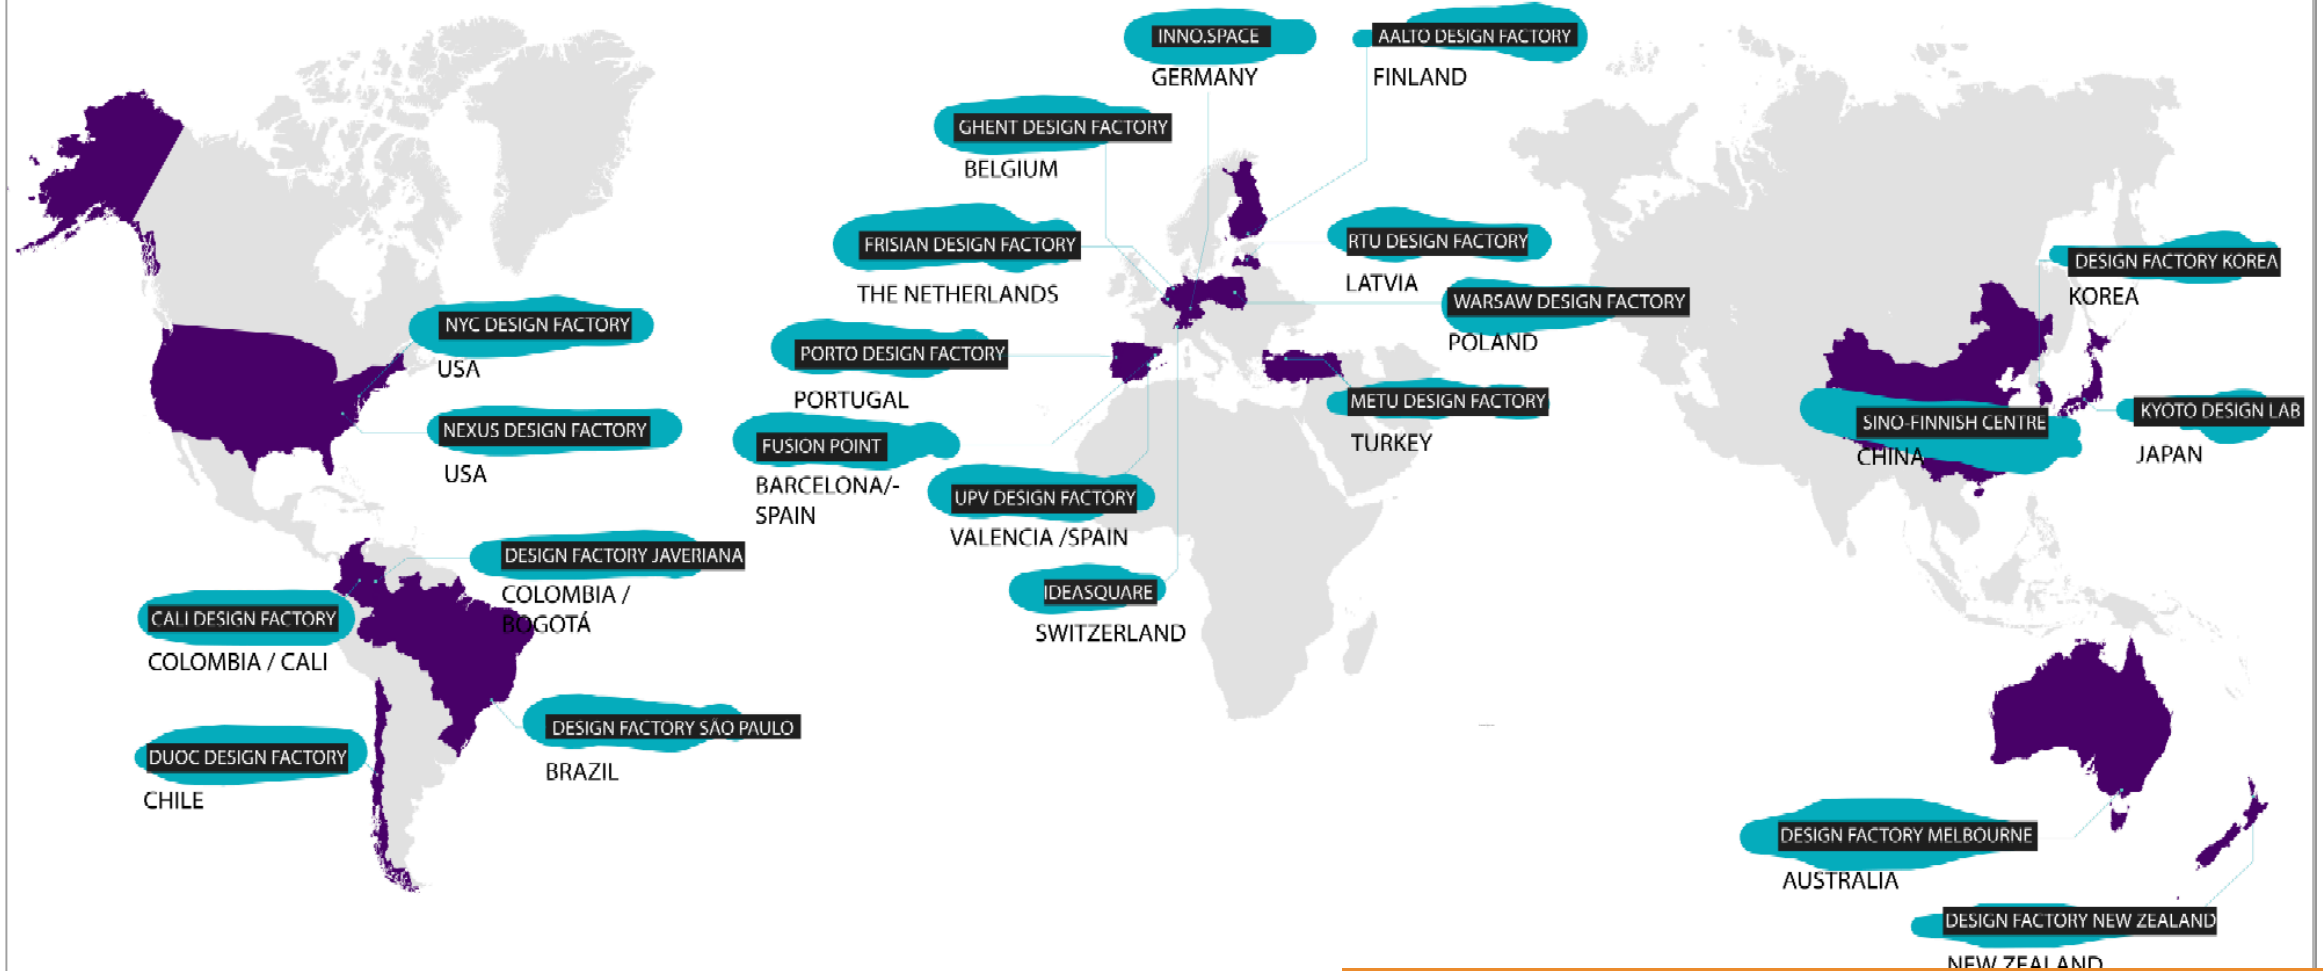

Our facilities at inno.space Hochschule Mannheim

- What we call: **“Room for innovation”** equipped with all the materials from machinery to white boards
- **Low-Fidelity Prototyping** area
- Machinery room with **Laser Cutter, 3D Printer and Soldering equipment**
- **Flexible area** with tables for students to work
- Unformal meetings at the couch

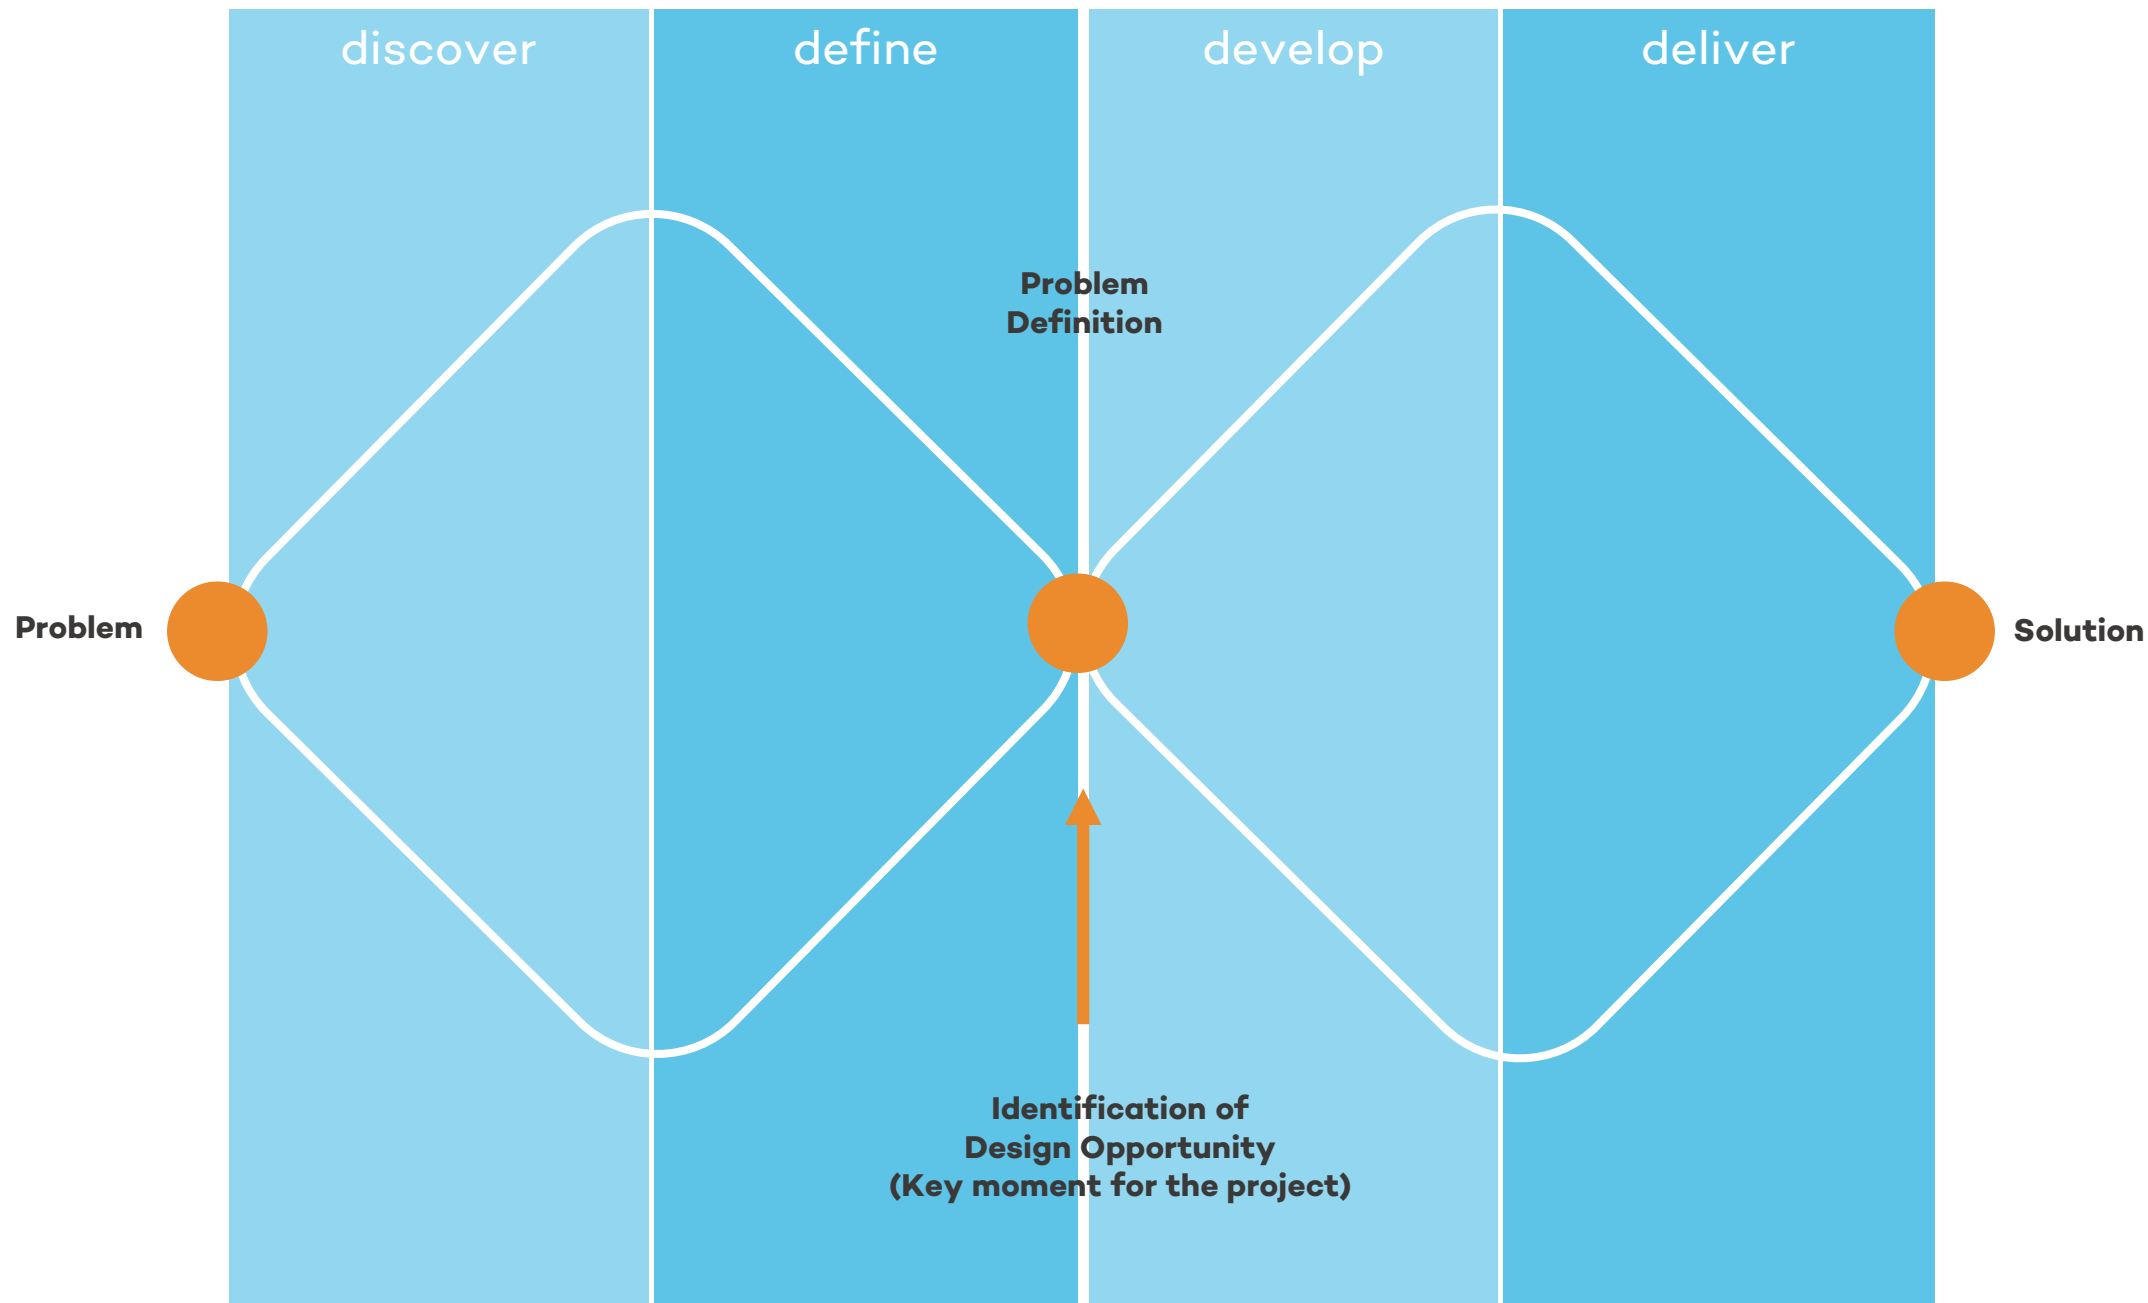

G-DIP: Global Cooperation between University Tartu and HS Mannheim

Design Factory Global Network Map

Double Diamond (Design Council, 2005)

Context exploration

(re)explore the design space

User Research

understand the user

Ideation

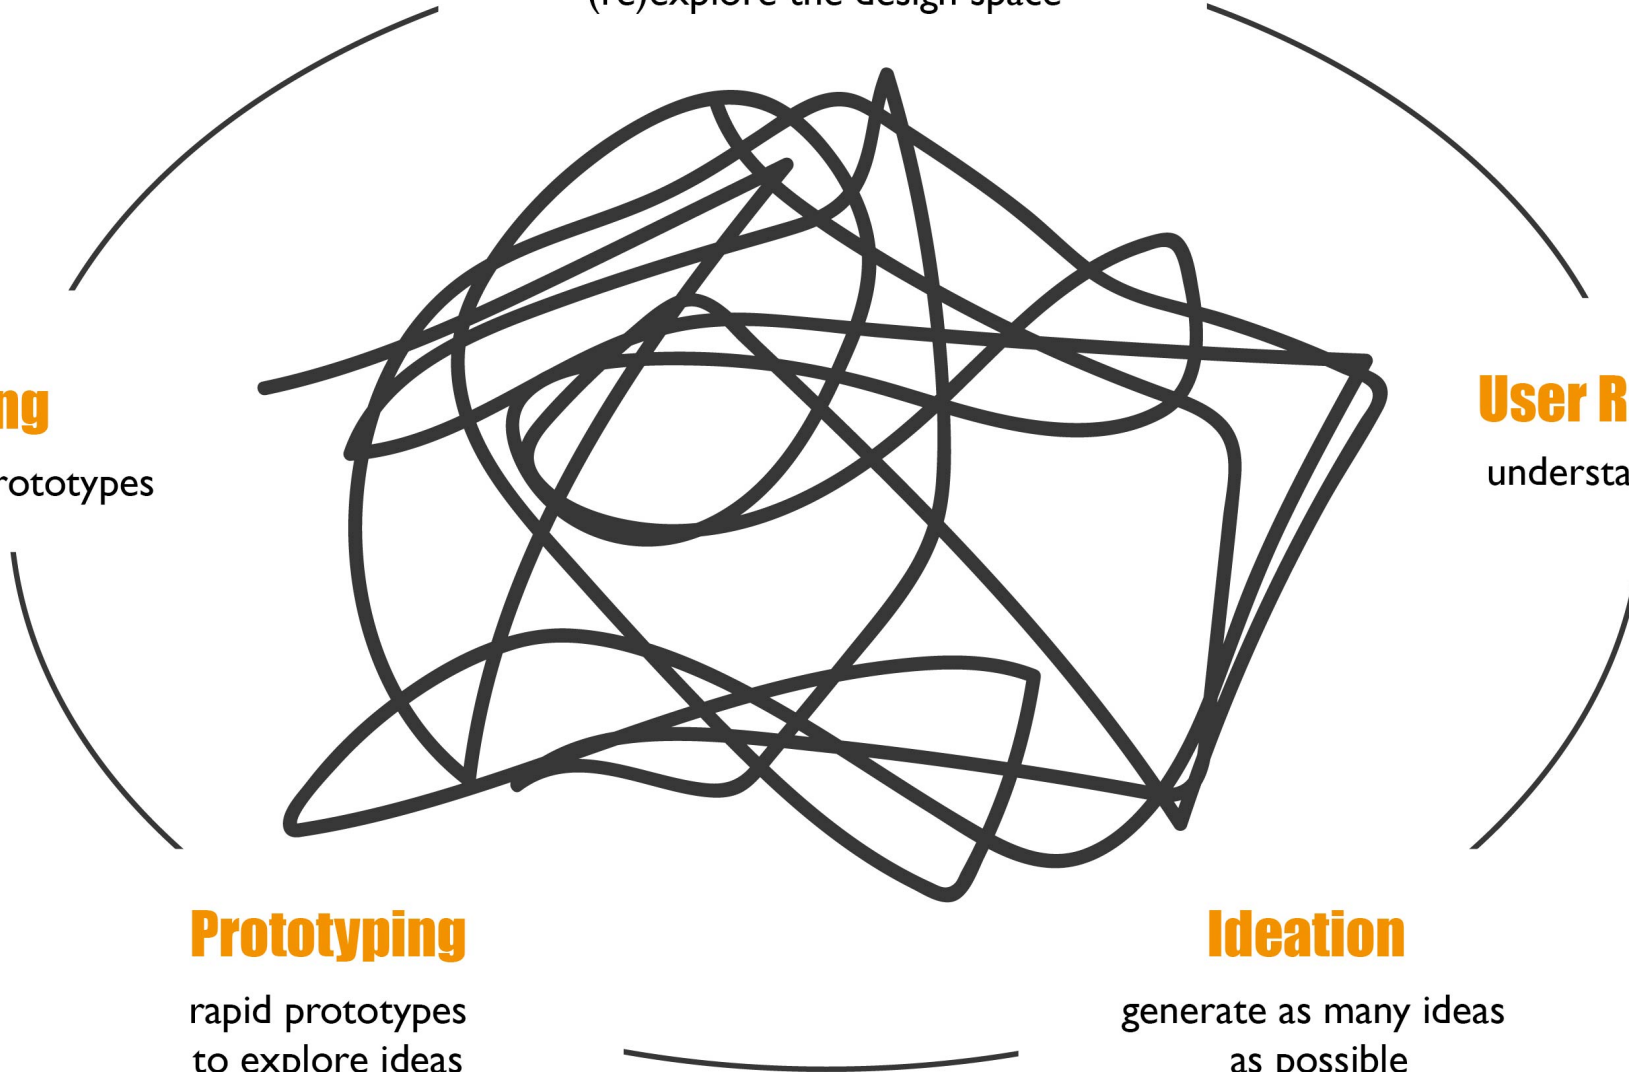

generate as many ideas
as possible

Prototyping

rapid prototypes
to explore ideas

Testing

learn from prototypes

Global Digital Innovation Program (G-DIP)

- **International project**
 - **Action-based** project
 - **International** teams
 - **Close collaboration** with **corporate** partner
 - **Tangible** proof-of-concept **demonstrator**.
 - Weekly video sessions with your global team partner
 - Travel to Tartu once
-
- Open for students of Computer Science; 6th or 7th semester
 - Duration: From the end of February to beginning of June
 - 5 Credits (ECTS). The workload is approx. 1 day a week.
 - Place: At inno.space (building K, room 019)
 - **Application: Deadline January, 10th 2020**
(One page CV in English, very short letter of motivation;
email to inno.space@hs-mannheim.de)

Past projects at inno.space

RESHELF

SQUAD – 2018/19

Reshelf is a smart-shelf and an easy to use smartphone app. The app allows users to put used items into the shelf and trade them for items others have put in. This extends the products lifecycle leading to waste reduction and provides easy and cheap access to used items.

FAMPEDIA

SQUAD – 2018/19

Fampedia is the social network for your family – and only your family. Therefore it is a private space where nobody has to worry about “likes” or “looking cool”. Fampedia focuses on only preserving moments by sharing a few pictures of each event with your loved ones. Furthermore it has a very simple structure so that no one gets confused or distracted by unnecessary information.

A photograph of three people in a workshop or office environment. On the left, a woman with short blonde hair is looking down. In the center, a woman with long red hair is looking towards the camera. On the right, a man with a beard, glasses, and a Raiders baseball cap is looking down. They appear to be working together on a project.
